

GUIDANCE FOR OTHER ORGANIZED ACTIVITIES

Organized activities include a variety of group activities based on shared interest. These can include any extra-curricular activities, hobbies or clubs. Specific examples include scouts, speech and debate, theater, book club etc.

Practice physical distancing of six feet in all areas.

Limit indoor activities and events when physical distancing is not possible.

Outdoor gatherings should be limited, and six feet should be maintained between participants/families.

Organizations should require face masks be worn by all participants, group leaders and spectators, even when outdoors. The current ordinance in the City of Springfield requires masking for anyone twelve and older, but it is highly recommended for children between three and eleven as well.

In group activities where physical distancing is not possible, groups/teams should be kept small and participants should remain in stable groups to reduce the spread of any potential exposures.

- o **“Stable” means that the same children are in the same group each time you meet**

Routinely clean and disinfect frequently touched surfaces.

Limit the use of shared items.

Organizations should screen all participants at each meeting for fever COVID-19 symptoms. Any individual with a temperature of 100.4 degrees or higher, or any COVID-19 symptoms should be sent home and they should seek testing.

Record attendance of both participants and spectators at each activity. Include their name and contact number in case they need to be reached in the event of an exposure.

For activities and clubs that don't require in-person interaction, consider meeting virtually.
